Cleaning Tips

Even POLYWOOD gets dirty — here are some ways to help keep it clean:

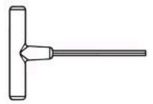

For a quick clean:
Simply wipe down with soap and water.

For a deeper clean:
You'll need:
» ⅓ bleach and ⅔ water solution
» clean cloth
» soft bristle brush

Wipe on solution with your cloth and let it sit on the lumber for a few minutes (this will not affect the color). Then, loosen any dirt and debris that may catch in surface grooves with a soft bristle brush; hose down to rinse.
